SUMMARY

Full Stack Developer specializing in the MERN stack, with internship experience delivering production web applications across enterprise and startup settings. Skilled in building end-to-end systems, including responsive front-end interfaces, RESTful back-ends, and Firebase/SQL-backed data layers. Augments front-end and back-end development with Python-based data analysis and machine learning, enabling data-aware application design.

EDUCATION

NIST University, Berhampur, Odisha

2023 – 2027

B.Tech, Computer Science and Engineering - CGPA: 7.91

EXPERIENCE

Software Development Intern, Tata Steel Special Economic Zone (TSSEZ)

May 2026 – Jun 2026 | Bhubaneswar, Odisha

- Developed a full-stack Vendor Pass Management System using HTML, CSS, JavaScript, Firebase Authentication, and Firestore, automating vendor entry permit management through secure authentication, real-time search, pass generation, expiry alerts, and efficient record tracking.

Full Stack Development Intern, AiRobosoft (Summer Training)

May 2026 – Jun 2026 | Remote (Bengaluru, Karnataka)

- Acquired hands-on expertise in full-stack development through task-based training using React, HTML, CSS, JavaScript, Firebase, and SQL.

Data Science & Data Analysis Intern, NIST University (Summer Internship)

May 2025 – Jun 2025 | Berhampur, Odisha

- Performed exploratory data analysis and feature engineering on multiple datasets using Python, applying data cleaning, encoding, scaling, and feature selection to identify patterns, correlations, and anomalies and prepare data for predictive modeling.

PROJECTS

Hostel Management System:

- Built a full-stack role-based hostel management platform with Admin, Warden, and Student modules, featuring JWT authentication, room allocation, leave and complaint management, announcements, profile management, and RESTful APIs using Node.js, Express.js, MongoDB, and Mongoose.

Smart Data Visualization and Analytics System

- Developed BizIQ, a Python Flask-based data analytics platform that processes CSV/Excel datasets, performs automated data cleaning and column analysis, generates interactive visualizations and business insights, and enables users to create custom charts by selecting data columns and chart types.

LawPro — WCAG-Compliant AI Legal Assistant (Research Project)

- Developed an AI-powered legal assistance platform that generates structured constitutional guidance from case descriptions, featuring a WCAG-compliant frontend optimized through Lighthouse, addressing accessibility gaps in existing legal-tech tools.

SKILLS

Core Competencies: Full Stack Development, REST API Design, Responsive UI, Machine Learning, Data Visualization

Frameworks & Libraries: React.js, Node.js, Express.js, NumPy, Pandas, Matplotlib, scikit-learn

Languages: JavaScript, Python, Java, C, HTML/CSS, SQL

Databases: MongoDB, MySQL, Firebase Firestore

Tools: Git, GitHub, VS Code, Jupyter Notebook, Firebase

CERTIFICATIONS

- MLOps Fundamentals: Building, Deploying, and Scaling AI Solutions
- Tata GenAI Powered Data Analytics (Tata Group)
- Tata ESG (Tata Group)
- Data Analytics Job Simulation (Deloitte)
- TCS iON Career Edge — Young Professional (TCS iON)
